Podiatry & Orthotics

If you suffer with foot, lower limb, hip or back problems including arthritis, diabetes, or a sports injury, then an assessment with 3fivetwo Podiatrists could help alleviate your symptoms.

We offer specialist podiatry assessment and treatment for both adults and children including:

- Consultation with a Clinical Specialist Podiatrist
- Detailed medical history
- Full biomechanical examination to determine range of movement and muscle strength
- Gait analysis
- Neurological & vascular assessment
- Diagnostic Imaging

Treatment plans may include:

- Provision & fitting of custom made orthotics, braces, splints and padding
- Manipulation, acupuncture or physiotherapy
- Advice on appropriate footwear, stretches, exercise and strengthening programmes
- Referral for surgical intervention

For further information or to arrange an appointment, call our Dedicated Private Patient Line:
